

Cisco UCS INVICTA SERIES SOLID STATE SYSTEMS

Cisco UCS Invicta Series Solid State Systems harness the power of flash technology to accelerate data-intensive application workloads. By bringing dramatically faster I/O into the computing domain, Cisco UCS Invicta Series allows businesses to transact, process, and analyze more data in less time. In addition to application acceleration, Cisco UCS Invicta eliminates labor-intensive processes and simplifies the data center, allowing for maximum operational efficiency and sustained business advantage.

Cisco UCS Invicta Series offers the following Features and Benefits:

- Easy Deployment and Management
- Consistent Performance for Key Applications
- Persistent Flash Memory and Data Security
- Cost Savings

You can learn more about the Cisco UCS C260 M2 Rackmount Server on Cisco's website at the following URL:

<http://www.cisco.com/c/en/us/products/servers-unified-computing/ucs-invicta-series-solid-state-system/index.html>

For sales and account support, please contact one of Cisco's local account managers:
